**La Havana . Cuba**

**April 22, 2025**

---

### **III FORUM ON FOREIGN INVESTMENT IN THE HEALTH SECTOR**

---

The Ministry of Public Health and the Comercializadora de Servicios Médicos Cubanos, S.A. (CSMC, S.A.) call for participation in the III International Forum on Foreign Investment in the Cuban health sector, to be held in person and virtually on April 22, 2025 in Havana, within the framework of the II International Medical Tourism and Wellness Fair, FITSaludCuba, to be held from April 21 to 24 of this year, as part of the XVI edition of the "Health for All" Trade Fair.

This Forum will provide an excellent space for exchange between national and foreign businessmen, government representatives, Chambers of Commerce and Trade and Investment Promotion Agencies, who wish to interact and exchange on business, partnerships and investments in the Cuban health market, promoting the portfolio of foreign investment opportunities in the Cuban health sector, related to thermal centers, highly specialized health clinics and production centers and medical supplies.

We call professionals from the health and tourism sectors interested in updating their knowledge on:

- The particularities of the legal framework for foreign investment in Cuba.
- To learn about the experiences of foreign businessmen related to foreign investment projects in the Cuban health and tourism sectors.

Virtual participation can be made through the URL <https://cubasalud.sld.cu/>. Working appointments for the exchange with foreign investment specialists may be arranged upon prior request once the FITSaludCuba registration fee has been paid on the web page.

We count on your presence!
